English Essay

English Essay

introduce my name Muhamad Ilham, I am a semester 5 informatics engineering student in Polibatam, in this semester I am interning at a company in Batam, namely PT. SEMB or commonly called schneider. And I'll tell you a little bit about the importance of mastering foreign languages, especially English. Mastering English is very important especially for IT activists, first of all it makes it easier for us to get information, most information can be found easily by using English. secondly increase our opportunities in the job, because surely we all want to work in a good company and good companies highly prioritize candidates who master english to make communication easier. And the third adds intelligence, the more we master foreign languages it will increase intelligence and make it easier for us to connect with anyone because we have no limitations in communication. So the conclusion is that mastering a foreign language, especially English, is very important because it can make it easier for ourselves in various ways, especially to create a relationship.
